

## MILLWRIGHT

d/s Services, Inc., located in Cass City, Michigan, is a manufacturer, distributor, installer, and retailer of high quality, innovative agricultural equipment. We specialize in grain storage, grain drying, and grain handling.

**What we offer:** We have a great family work atmosphere and the position provides significant amount of independent judgement and decision-making. Compensation is highly dependent on the candidate's background. Excellent benefit package.

### **What you would be doing:**

- Onsite installation and maintenance on grain bins, augers, conveyors, dryers, pumps, motors, gear boxes and other grain handling equipment.
- Utilize power tools, torching, arc welding and basic fabrication.
- Interpret instructions, blueprints, schematic drawings and manuals.
- Adhere to all safety and project rules and ensuring those safety precautions are implemented per the Company, Customer standards and/or OSHA/MIOSHA.
- Maintain a clean and organized job site throughout the project.
- Exhibit a positive attitude, enthusiasm, energy and an eagerness to learn what is needed to do the job.

### **This would be the job for you if you have:**

- Millwright, fabrication, welding, and/or electrical/mechanical repair experience
- Must have ARC Welding Experience
- Valid driver's license (CDL Class A is preferred) and maintaining ongoing certifications (i.e. DOT Med Card)
- Must have a High School Diploma or a G.E.D
- Experience in mechanical math
- Knowledge of optical and laser alignments
- Ability to work 5 days per week at 10-12 hours per day due to business requirements (average hours for the year 2,600)
- Ability to lift up to 50 lbs. and work on feet for the majority of the day and be able to climb as high as 200'
